

KnowledgeQuest Presents

FORENSIC SCIENCE

MONDAYS, 3:00 - 4:00 PM @ SIMONDS (4/2, 4/16, 4/23, 4/30, 5/7, 5/14, 5/21)

Did you know that the insects found around dead bodies are used to determine the time of death?

Learn about forensics, crime scene investigations, the power of observation, evidence, and crime lab chemistry as you perform different experiments designed to show how those tricky cases are solved. Learn about the types of fingerprints, how we find and collect them and how we analyze them. Discover how we use footprints, tire tracks, hair samples, and bite marks to catch the bad guys. Study handwriting, learn about chromatography, and see if you can reveal burned documents to prove your case. Figure out what happened and who was there by analyzing blood samples and extracting DNA.

Approval for distribution of these materials does not imply endorsement by San José Unified School District.. La aprobación para la distribución de estos materiales no implica reconocimiento alguno por parte del Distrito Escolar Unificado de San José. Scholarships may be offered upon request.

**Grades 1-6
\$225**

I would like to register for ALL 4 hands-on science classes and receive a \$25 discount!
