Mini Series: Grades 3-7

Problem Solving Lab (July 30-31, 8:30am-2:30pm, \$215)

Problem solving is one of the hardest math concepts to learn. Our hands-on approach uses manipulatives and proven techniques for solving 90% of word problems.

Study Skills Secrets (August 1-2, 8:30am-2:30pm, \$215)

Get organized and efficient before the school year starts! Learn to manage your time, study space, and papers, and what the most essential organizational skills are. Plan to succeed by discovering your learning style and reading rate. Learn memorization skills, and develop reading strategies for speed, comprehension, and retention. Learn to take notes, make outlines, and pay close attention to the most important lectures and instructions. Steel your nerves by learning to prepare for, take, and finish tests with confidence.
