

# KnowledgeQuest Presents Summer Adventures

Day camps starting in July  
Monday-Friday, 9:00AM-3:00PM, \$455

## Life-Skills Academy July 20-24

This educational camp will teach the young generation what it takes to be an adult. Campers will learn fundamental life skills such as how to balance a checkbook, how to handle and save money, and how to better manage their time and stress. Campers will become junior investors for a day as they learn the basics of financial literacy.

They will further discuss how to stop 'hiding behind' electronic devices and develop successful communication and social skills, and how to discern real from fake news in today's world. They will return from the camp with better manners, as they master their body language and become aware of what is polite and acceptable behavior in the 21st century.

## Writing Wizardry July 27-31

Join us for some exciting writing fun. Learn to brew up an essay like a potion, and create topic sentences and supporting details with a wave of your wand. Tell a story more enchanting than a wizard's spell and illustrate it to bring your words to life like magic.

**Class size limited to 12 students.**

**Programs conducted in compliance with all current Santa Clara County health and safety requirements.**
